Senor Montt's Communication Laid Before the Cabinet.

CHILI MODIFIES HER POLICY.

Will Do All She Can to Carry Out the Request of the United States Government.

Quiet Diplomatic Affair in the Hands of the State Department.

A Sorry Chili.

New York, Nov. 3.—The flagship Phila-delphia will leave the navy yard this after-noon if its full allowance of ammunition can be got aboard. The magazines of the Bennington were emptied to supply the flagship. Lighter wooden masts have been placed on the Philadelphia in lieu of steel fore and mizzen masts, reducing the top weight about fifteen tons. Admiral Gher-ardi is reported to have said that he ap-prehended no serious difficulty with Chili. Peru would only be too glad to take a hand against Chili for stealing her valuable ni-trate leads. He amrehended no difficulty against Chili for steaming her variation at trate beds. He apprehended no difficulty in obtaining coal supplies in the event of war, in which case Chili would be a sorry Chili. His men, he said, were eager for a round with the pugnacious sons of Santi-ago, and he had sent a request to Secretary Tracy that his squadron be sent to Chili. Santiago. Nov. 3.—It is said Minister of Foreign Affairs Matta has sent a concilia-tory dispatch concerning the Baltimore affair to Minister Egan, evincing a desire to see justice done as soon as the inquiry is concluded. He also wired the German admiral, Valois, an apology for insults by the Chilians to the German officers.

The Itata Case. Los Angeles, Cal., Nov. 3.—The Itata case came to an end to-day. Judge Ross of the United States court rendered a decision granting the motion to dismiss the case against the defendants. The decision is a

very lengthy one. The Cabinet Meeting.

Washington, Nov. 3.—Secretary Blaine was a few minutes late at the cabinet meeting to-day, and when he reached the White House he found Secretaries Rusk, Proctor and Noble, Postmaster-General Wanamaker and Attorney-General Miller, Blaine laid before the newsiders and his cabinet. maker and Attorney-General Miller. Blaine laid before the president and his cabinet the data left with him by Senor Montt and Secretary Tracy yesterday in relation to the junta's action in the investigation of the Valparaiso outrage. The assurances of the Chilian agent that his government were doing all they could to carry out the propusation.

the Chilian agent that his government were doing all they could to carry out the request of the United States government were received by the president and his cabinet in the same manner as by Secretaries Tracy and Blaine yesterday and accepted as in earnest. The Chilians intend to do the proper thing.

The cabinet meeting was not a long one, and as the Chilian question has now settled down to a quiet diplomatic affair in the hands of the state department, there was nothing for the president and his cabinet to do. Senor Montt's sudden departure to New Orleans is another evidence that nothing new is to be expected for some time. It New Orleans is another evidence that nothing new is to be expected for some time. It is also an indication that Senor Montt does not fear severance of diplomatic relations between Chili and the United States, because the reason for his trip to New Orleans as to get his household effects through the custom house there.

Yesterday the treasury department notified the collector of the port of New Orleans to render all the assistance to Senor Montt as the representative of Chili, and

pass his goods without opening. Senor Montt had sent his goods from Chili via New Orleans and they are due there now. While in New Orleans he may himself make an investigation of the killing of the Italian prisoners and see if that was a par-allel case with the Valparaiso affair. The state and navy departments both say no further news has been received at the de-

The Bennington is ready to put to sea. She was to have gone to Gardiner's bay for target practice, but the Chilian trouble developed, and she was ordered to stay at her clash. The Canapad will be fit for husidocks. The Concord will be fit for busi-ness in a short time, when she has a new steering quadrant. The Charleston is reported to be on her way from China to the West Indies. It is plain that before long there will be a very strong fleet of United States ships in the West Indies or some-where further south.

No Chillian News. Washington, Nov. 3.—There was no Chilian news at the department to-day. Senor Don Pedro Montt has gone to New Orleans to meet his wife and some mem-bers of the Chilian legation, who are expected to arrive to-morrow on a steamer

New Orleans, La., Nov. 3.—North Louisiana is doing very badly in the matter of lynching. There were two additional ones last night at Merrouge in Moorehouse parish. A man by the name of Dycuss was murdered in that parish three weeks ago by unknown persons, being shot in the back at night. Two men by the name of Smith and Felton were suspected of the crime and arrested and locked up in jail. Friends of the murdered man forced their way into the jail last night, took the prisoners from it and lynched them.

Maverick Officials Arrested.

Boston, Mass., Nov. 3.—A. S. Potter, president, Col. Jonas H. French and Thomas Dana were arrested by the United States marshal last night, the former at his residence in Cohasset and the two latter at their residences in this city. The warrants, it is understood, charge embezzlement and a violation of the United States banking laws, which forbid any loan by a national bank to any single individual amounting to more than 10 per cent of its capital stock. It was reported that the Boston and Maine railroad has \$76,000 on deposit at the Maverick bank to cover their November divierick bank to cover their November divi-General Manager Furber this forenoon

denied that the amount would reach this figure, but stated the road had \$400,000 in bank at the time of suspension. By law the directors of a national bank are allowed the directors of a national bank are allowed to borrow only 10 per cent of the capital stock of the institution on some collateral. In this case it is said that A. S. Potter owes the bank \$1,300,000, Jonas H. French \$800,000 and Thomas Dana \$400,000 or a total of \$2,225,000. About \$50,000 of the firemen's relief fund was placed with the Mayerick bank and the bulk of this fund is securely locked up in the city treasurer's safety vaults. In the Maverick was also the John Boyle O'Reilly fund amounting to

some \$17,000.

In the United States commissioners' court to-day the announcement was made that there was to be a private conference be-tween the court and counsel in the case of Messrs. Potter and Dana, and nothing would be given to the press except such matter as might be decided upon as proper for publication. It can be positively stated, however, that no additional arrests have for publication. It can be positively stated, however, that no additional arrests have been made, and as yet neither Potter, French nor Dana have given bond. It was understood that the conference was over the amount of bond to be received, the district attorney insisting upon \$200,000 for each of the accused, while their counsel are asking that only \$30,000 shall be required. There is a belief that if the district attorney carries his point the three men will go to jail. At 3 o'clock the situation was this Mr. Potter had not been arraigned. Mr. Mr. Potter had not been arraigned, Mr. French had just been brought into court, Mr. Dana had secured a continuance of his case, his bail had been reduced from \$75,000 to \$60,000 and Mr. A. C. Brownell had become his bondsman.

Potter Gives Bond.

Boston, Nov. 3.—At 3:45 this afternoon.
Asa P. Potter was arraigned before Commissioner Hallett. He pleaded not guilty.
Potter was held for trial at the district court in November in the sum of \$100,000 by Commissioner Hallett. T. B. Brennan is his surety.

San Francisco, Cal., Nov. 3.—The strike of the Union iron moulders, which began in this city November 3, 1889, ended to-day, the union voluntarily declaring the strike off. The cause of the strike was the joint off. The cause of the strike was the joint action of fourteen large foundries in refusing to recognize the rules of the union, which they claimed worked a hardship to their industry. About 140 moulders and forty core-makers were involved. It is estimated that the strike has cost the union over \$100,000, and three lives were lost through violence, the outgrowth of the feeling which prevailed between the moulders.
